

GDRHS Videos

As part of your child's educational program, he/she may have the opportunity to have his/her pictures published in the district and school videos. We believe that sharing this information is an exciting and enriching opportunity for our students. However, we will publish your child's image and voice only with your written permission.

- Identifying information about students, such as first and last names, personal phone numbers, or home addresses, will not be a part of the video. First names and/or first letter of the student's last name may be used where appropriate.

I give permission for my child's image & voice to be published in the district and/or school video that will be aired publicly.

_____ Yes _____ No

Name of Student: _____

Signature of Parent: _____ Date: _____
